Whilst it is easy enough to list the early Diesel classes, once we get to the early 1980s, when locos. were being named every few days, and nameplates were being transferred to other locos, it becomes more complicated ! The Railfreight era is even more confusing, so I hope my method of setting out the various sets helps you to order what you want. Sets are listed in Class headings, and each set has a Letter Code to show which plates are included- many names will be available in more than one form which depends on livery, and will require different plates in their set. Make sure you ask for any variations to what is listed, and I will quote you the Price if it is different.

**NAMEPLATES are generally listed by their FIRST NUMBER**

**Prefix (N) = a pair of Nameplates ONLY £23**

**Prefix (CN) = a pair of Nameplates & a pair of Crests £29**

**Prefix (NW) = a pair of Nameplates & Pair of Worksplates £27**

**Prefix (CNW) = a pair of Nameplates; Crests, Worksplates £34**

**NB: If you require 4 worksplates with your set, PLEASE ADD £5**
